

Blue Line Bristol Board

THE TRUSTED COMIC BOARD FOR THE SERIOUS COMIC CREATOR

Looking for the perfect boards,
measured and cut at the perfect size?

Blue Line
Bristol Boards
are what any serious
comic artist
needs to complete
their masterpiece..

Most measurements
for the borders
have been made in
non-photo blue lines!
No need to measure
the edges of your panels!
Carefully measured out
guides assist with making
individual panel measures much easier.

Finally, use what the pros do and watch
as the lead sticks easily to the board
just ready and eager for inks!

*You'll be drawing
your comic pages
faster and more
accurately
for the printer,
effectively
cutting out the
turnaround
time on your
comics when
you choose
Blue-Line.*

Other bristol can be too rough and can make your pencils come off too bumpy. With Blue-line you get a semi-smooth surface in which to draw one. This makes your leads sharper and less smudgy.
